

Dye Sublimation

We are pleased to offer a range of proven heatpresses, which are all suitable for Dye Sublimation.

Our small format range covers flatbed presses from A4 size up to 50 x 38cm. All the presses are CE marked and have fully adjustable temperature and pressure.

I-Tec Economy Heat Press

This high quality, budget priced, manually operated clam action press is suitable for most operations for small format dye sublimation.

The Clam operation results in minimum operating space and the press has an interchangeable lower platen. The press is fitted with a computerised controller to monitor both temperature and time, and the pressure is manually adjusted. Available in two platen sizes of 28 x 38cm and 40 x 50cm.

Beta Maxi Swing Away Heat Press

This market leading small format manual heat transfer press with swing away heat platen, allows full use of the lower heat bed.

It has a cut away modified lower base for ease of garment loading and a 2.75" opening for ease of printing of thicker substrates. The heating element is designed to offer even temperature distribution and has a lifetime warranty and is CE approved.

Price - £425.00

Beta Mug Press

This high quality, manually operated mug press is ideal for printing to all polyester coated mugs.

It is ideal for locations with limited space as it only requires 30cm x 70cm of worktop space and is light enough to carry about.

The printing area is 11 (h) x 22 (w) cm.

Note:

- Prices excluding VAT and delivery.
- Full specifications and weights / dimensions are available on request.
- Demonstrations available.
